| Protection class | IP54 |  |  |

## SunBeat home energy monitoring

Eliminate electricity bill surprises by Monitoring your electricity usage using real time energy information, detailed reports, and conveniently access your home energy information from your smartphone, tablet or computer.

Integrates grid and generator power with dual $A C$ inputs

Supports DC coupled and AC coupled off grid and grid tie architecture

Single or three phase systems configurations (with factory design approval)

Designed for reliability, safety and ease of information
